

Removing Modules in Magneto 1

Modules are like women

Modules are like women

- First we think the more we have the better

Modules are like women

- First we think the more we have the better
- They are so sexy unless you look inside

Modules are like women

- First we think the more we have the better
- They are so sexy unless you look inside
- We have them for one night

Modules are like women

- First we think the more we have the better
- They are so sexy unless you look inside
- We have them for one night, months

Modules are like women

- First we think the more we have the better
- They are so sexy unless you look inside
- We have them for one night, months, years

Modules are like women

- First we think the more we have the better
- They are so sexy unless you look inside
- We have them for one night, months, years
- The very best of them we keep forever

Modules are like women

- First we think the more we have the better
- They are so sexy unless you look inside
- We have them for one night, months, years
- The very best of them we keep forever
- The rest we have to **remove**

Modules are like women

- First we think the more we have the better
- They are so sexy unless you look inside
- We have them for one night, months, years
- The very best of them we keep forever
- The rest we have to **remove**
- Some of them goes seamlessly

Modules are like women

- First we think the more we have the better
- They are so sexy unless you look inside
- We have them for one night, months, years
- The very best of them we keep forever
- The rest we have to **remove**
- Some of them goes seamlessly
- Some leaves lots of junk in our core
